# Award Categories

- Stephen E. Barton Leadership and Culture Award
- Workforce Development Award
- Operational Excellence Award
- Most Improved Award
- Supply Chain Innovation Award
- Customer of the Year Award
- Richard Hall Award for Leadership Excellence

## **Stephen E. Barton Leadership and Culture Award Finalists**

- Energy Dynamics, Inc., Machesney Park, IL
- IDD Aerospace, Redmond, WA
- MPC Industries, Irvine, CA
- National Technical Systems (NTS), Calabasas, CA
- Pattonair USA, Inc., Fort Worth, TX
- US Aluminum Castings, LLC, Entiat, WA

## Stephen E. Barton Leadership and Culture Award Winner

MPC Industries, located in Irvine CA is a premier grinding and polishing company serving the international aerospace, medical and various other industries whose customers demand high precision, quality products. MPC is ISO 9001:2000 and AS9100 Certified, MPC provides first quality flat sheet and plate precision grinding and flat sheet and formed parts polishing on time – every time.

***Mario Robles***, General Manager

## Operational Excellence Award Finalists

- Beacon Industries, Bloomfield, CT
- Best Mold & Manufacturing, Inc., Akron, OH
- Hixson Metal Finishing, Newport Beach, CA
- Kimberly Machine Company, Inc., Garden Grove, CA
- SMS Technologies, Inc., San Diego, CA
- Vaupell Northwest Molding & Tooling, Seattle, WA

## Operational Excellence Award Winner

**SMS**  
**Technologies**

SMS offers turnkey electronic manufacturing services including PCBA design, rapid prototyping, DFM & DFT services as part of APQP and 3P. SMS produces low to medium volume PCBAs and integrated box-builds for military, aerospace and other applications including automotive products. Other core competencies also include, RF & GPS technology, quick product launches with high quality and steep ramps to customer demand.

**John Yerger**, President and COO

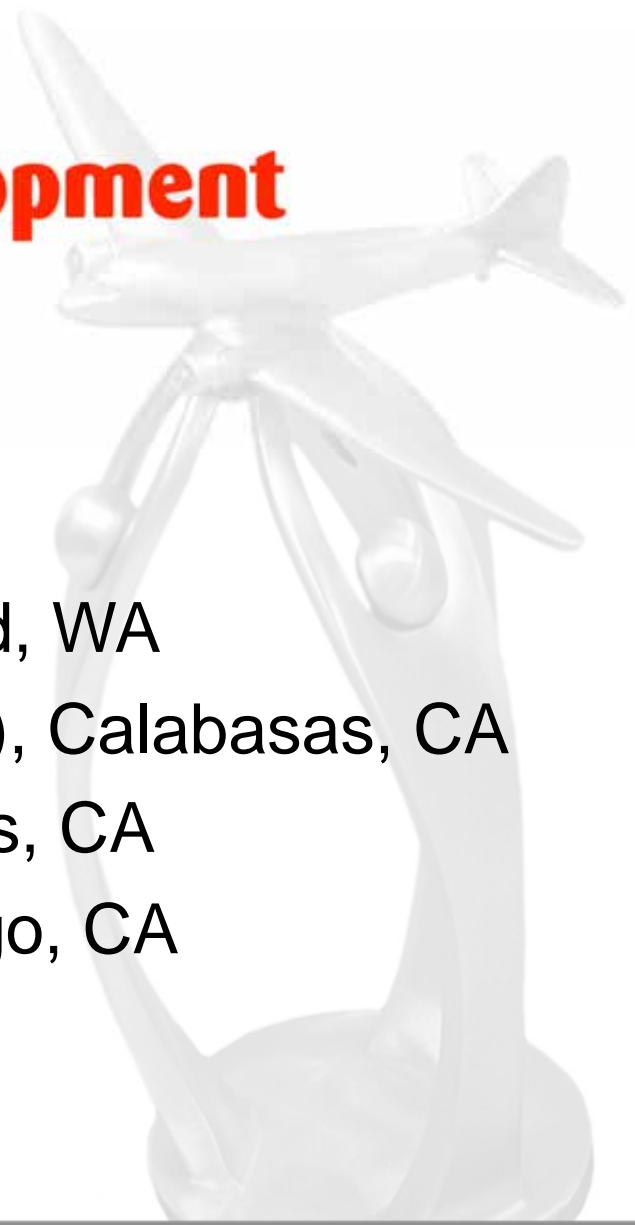

**SEA** Accelerating Supply Chain Performance

## Workforce Development Award Finalists

- Forest City Gear Co., Roscoe, IL
- Greenpoint Technologies, Kirkland, WA
- National Technical Systems (NTS), Calabasas, CA
- Schrillo Company, LLC, North Hills, CA
- SMS Technologies, Inc., San Diego, CA

# Workforce Development Award Winner

Schrillo Company supplies special components for aircraft, missiles and space applications, and a broad line of precision ball-screw and acme screw assemblies. Applications encompass military aircraft, missiles, space and commercial aviation. Schrillo Company is a 73 year old family owned small business.

***L.W. McAdams***, President

**SEA** Accelerating Supply Chain Performance

## Most Improved Award Finalists

- Energy Dynamics, Inc., Machesney Park, IL
- GENTEX Corporation – Respiratory Systems, Rancho Cucamonga, CA
- Hixson Metal Finishing, Newport Beach, CA
- Kimberly Machine Company, Inc., Garden Grove, CA
- Gar-Kenyon Technologies, Naugatuck, CT
- TSI Plastics, Inc., Minneapolis, MN

## Most Improved Award Winner

# TSI PLASTICS

TSI Plastics is a provider of non-metallic parts and assemblies to the Aerospace, Defense, Farming and Industrial Products industries. TSI produces parts using various manufacturing processes including, injection and compression molding, CNC milling and turning, thermoforming, rotational molding, and die cutting and punching. TSI provides complete secondary operation solutions including mechanical assembly, bonding, painting, and silk screening.

***Patrick J. McCready***, President

**SEA** Accelerating Supply Chain Performance

## Supply Chain Innovation Award Finalists

- Fairchild Controls, Frederick, MD
- Hercules Heat Treating Corporation, Brooklyn, NY
- Hixson Metal Finishing, Newport Beach, CA
- Pattonair USA, Inc., Fort Worth, TX
- Vaupell Northwest Molding & Tooling, Seattle, WA

## Supply Chain Innovation Award Winner

Hixson Metal Finishing is a premier processor for the military, defense, aerospace, and commercial aircraft industries, providing a wide array of finishing services to beautify, protect, and enhance the performance of forged, cast, and machined parts. With over 3,000 customers worldwide, Hixson has built its reputation by providing near-perfect quality, on-time deliveries, competitive pricing, outstanding communication, and a partnering philosophy with their customers, both big and small.

***Douglas C. Greene***, President

**SEA** Accelerating Supply Chain Performance

## Customer of the Year Award Finalists

- ITT Force Protection Systems, Thousand Oaks, CA
- Northrop Grumman Aerospace Systems, El Segundo, CA
- Secure Communications Systems, Inc., Santa Ana, CA

# Customer of the Year Award Winner

# ITT

ITT Electronic Systems is a leading supplier of information and electronic warfare (EW) technologies, systems and services that enable mission success and survivability. Key technologies include integrated EW systems for a variety of aircraft, reconnaissance and surveillance systems for air and sea-based applications, force protection and counter-IED systems, precision landing and air traffic systems for military applications, and under sea systems encompassing mine defense, naval command and sonar systems, and acoustic sensors.

***Hal Buddenbohm***, Supply Chain Director

**SEA** Accelerating Supply Chain Performance

## **Richard Hall Leadership Excellence Award Finalists**

- Douglas C. Greene, President, Hixson Metal Finishing
- John Yerger, President & COO, SMS Technologies, Inc.
- Patrick McCready, President, TSI Plastics, Inc.
- Shakeb Khan, Supplier Development, Parker Aerospace
- Teresa Beach-Shelow, President, Superior Joining Technologies, Inc.
- Wendy Lubahn, Director of Quality, IDD Aerospace
